

Emilio José Degiovanni

I am 42 years old and 22+ years of experience working, learning, coding and developing many systems, applications and websites for different kinds of companies and necessities. Currently, I am working as a Frontend developer for 7+ years focused on Angular, Material, RxJs, NgRx..

PROFESSIONAL EXPERIENCE

Double Nines, Full remote from Argentina — *FrontEnd Senior*

June 2022 - November 2023

I worked as a Frontend lead in an Angular 13-15 application about management of billing, customers, carriers and users for a logistics company. This project has an infrastructure of micro frontends handled with Webpack Module Federation, Kendo and NGRX as App State. I led and mentored the Frontend team. Furthermore, I led an extra package which is shared between all around the company projects. The aim of this library is to share an abstraction of many different common UI components for every Angular application.

Aquiva Labs, Full remote from Argentina — *FrontEnd Senior*

January 2022-May 2022

I worked on a house insurance project based on Angular 8, Material and NGRX, developing new features, bug fixing and writing unit test.

Cognizant Softvision, Argentina — *FrontEnd Senior*

November 2020-December 2021

I worked on projects based on Angular 9+ and Material, NGXS as application state, jasmine for unit testing. Leading code reviews and technical interviews of new candidates for the company.

I was assigned to a foreign client project where we were developing a payment application. I used to develop an application to manage internal users, customer clients and payments.

Globant, Argentina — *FrontEnd Senior*

August 2019-November 2020

I had been working on several projects based on Angular 8+ and Material, doing Code Reviews for Frontend teams, creating a schema of good practice and clean coding techniques. Unit and integration tests with Jest.

Freelancer, Argentina — *Fullstack*

2002 - August 2019

I started as a professional fullstack developer in 2002. All my work was based on PHP (Zend and Phalcon frameworks), MySQL, Apache/Nginx over backend and HTML, CSS and Javascript with jQuery over frontend. I developed many systems and websites, some relevant projects were

SKILLS

Angular v4-17
TypeScript and JavaScript
RxJS, NgRx/NgXs
MaterialUI/Kendo
CSS 3, SCSS and Bootstrap
HTML 5 semantic
Unit and Integration tests
with Jest and Jasmine
Webpack
Kubernetes & Docker
Git
AWS, Azure
PHP 7+
Phalcon 3+
MySQL/MariaDB/Redis
Apache/Nginx

LEARNING

MERN stack + GraphQL at
Helsinki University

LANGUAGES

English C1
Spanish native

PERSONAL FREE TIME

Family & friends, riding
bike or swimming, cooking,
reading books, dancing
salsa

- [Lettersystems](#) Argentine – 2014–2019
Development of an application for client, project and budget management
Backend and frontend development
- [Advanced Architecture Contest](#) Spain – 2009–2019
System of annual competitions for architects
Template implementation
Management of information pages, participants and awards

OPEN SOURCE PROJECTS

Phacon — *PHP Full Stack Framework delivered as an extension*

I spend time helping with this project mainly with Spanish documentation, writing unit tests and developing some new features or fixing bugs.

EDUCATION

National Technological University, Córdoba Argentina — *Information systems engineering*

2002 - 2006 Incomplete

Catholic University of Córdoba, Córdoba Argentina — *Information systems engineering*

2000 - 2001 Incomplete
